580 C

If you love the sea, the best choice is the 580 C.

The scratch-free, tempered-glass windshield provides ideal vision from the cockpit for decades.

The cockpit itself is ergonomically designed with high quality materials, such as wood-accented steering wheel and electrical auto fuses for trouble-free operation.

Then it is the cozy cabin, that allows you to rest safely during long cruises or after a day of successful fishing.

Access in the 580 C is as easy as it can get, thanks to the stern access door, the bow side corridors and the high rails for safe movements.

Ample storage space is provided under the stern seat and side shelves for your accessories.

Comfortable cushions, made from marine vinyls, in the cabin, cockpit and stern seat ensure a relaxing ride.

The successful, deep-V hull design of Olympic Boats offers a safe and easy trip, even at rough seas.

It is the excellent characteristics and distinctive design that make the 580 C the most serious proposal in the market.

Just take the wheel on hand and enjoy the sea!
